# Pinnacle Village

A Lifestyle Village by  CHT

Considering the next chapter of your life, choosing aged care can feel like a ‘trust fall’ from the life you’ve known, a step into the unfamiliar. Pinnacle Village promises you can make that decision confidently and trust that your choices are respected and supported at every step of this new path.

Pinnacle Village’s promise of ‘Where the good life lives on’ speaks to independence, agency, empathy, community, compassion, and care for each step of your aged care journey—through our services and facilities, at every level needed at every stage.

‘Where the good life lives on’ is a commitment to living by and sharing the same values as our residents, the same goals and aspirations, and the same commitment to every resident living well into the future.

## Where The Good Life Lives On

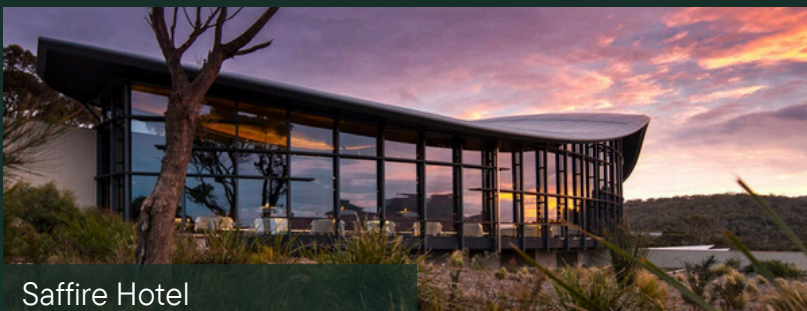

# Our Architects

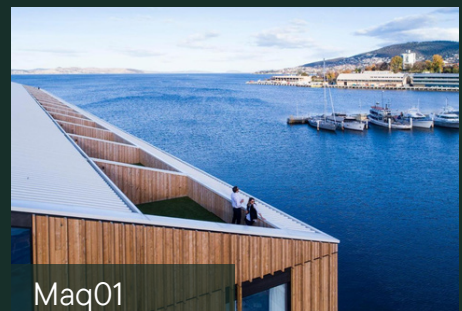

Circa Morris-Nunn Chua Architects is an inclusive, studio based design firm that draws from a wide range of experience, values and expertise leading to a creative inventiveness unique to our practice.

A fundamental aim of Circa's work is to explore ways in which architecture can be more enlightened and socially humane. The resulting architecture has received considerable national and international recognition, producing tangible economic and cultural benefits not only to the immediate users, but also in the wider public realm, and thus transforming the way the community, in which the buildings form a part, perceives itself to be.

They bring their expertise to a vision that plans to exceed the needs and expectations of our future and current residents. This project will set a new standard for aged care in Tasmania.

# A Full Service Precinct

Pinnacle Village offers a seamless blend of independent living, assisted living, and residential aged care, ensuring personalised support for every stage of life.

The vibrant community hub, featuring a café, hairdresser, and consultation rooms, fosters strong connections both within and outside the village.

With over 50 years of experience, Christian Homes Tasmania continues to deliver quality care, including Care at Home Services throughout Southern Tasmania. Pinnacle Village combines high-end hospitality with expert care, creating a space where residents can enjoy independence while embracing the next exciting chapter of life.

# Independent Living

Independent Living at Pinnacle signals a shift from traditional retirement living to offer a vibrant, community-focused lifestyle for Tasmanians approaching their 'third age'.

It's a time to be liberated from the pressures of work, young families and the financial responsibilities of 'establishing' ourselves. It is a time of finding space for self-care, and care towards others, where you can create new memories and embark on new adventures.

We will have 44 two bedroom units, each with a kitchen, living/dining area, laundry facilities and a dedicated undercover carpark.

Just like in our other villages, residents at Pinnacle Village are welcomed to join a vibrant community with an on-site community centre.

In line with our commitment to quality, all apartments meet Gold Standard Livable Housing Design Guidelines, ensuring both comfort and accessibility with a smooth transition to more care options if ever needed.

# Assisted Living

We are excited to introduce assisted living to Tasmania. Assisted living at Pinnacle Village offers the perfect balance of autonomy and support, empowering residents to live life on their own terms while enjoying first-class hospitality and care.

Whether you're looking for assistance with daily tasks or simply want the ease of hotel-like services, our one and two bedroom fully serviced apartments provide private kitchens, in-house laundry, and flexible options like linen washing and meal preparation.

A high-end commercial kitchen will serve the onsite café and restaurant, offering quality dining options. The facility is designed to encourage social interaction and personal enrichment.

Residents across the facility will also enjoy access to a restaurant, gym, library, and landscaped courtyards.

# Residential Aged Care

Pinnacle Village's residential aged care facility provides 24/7 care within a warm, home-like environment that offers the same high-end hospitality services.

Following the house model recommended by the Aged Care Royal Commission, it comprises five households, each with 15 private rooms and shared dining, lounge, and activity spaces.

For those with dementia, a dedicated house offers secure outdoor spaces, wayfinding, and looped pathways to support safe exploration.

Our residents benefit from a variety of lifestyle activities, including bus trips to cafés and restaurants, fitness classes, musical therapy, virtual reality experiences, and pet visits.

At Pinnacle Village, care is personalised, with a focus on enriching daily life through community, engagement, and comfort.
